**The Peter Story**

---

---

---

---

---

---

---

---

Today

**1.5bn**

adults in the world have hearing loss greater than 25 dBHL.

---

---

---

---

---

---

---

---

By 2050, this will reach

# 2.5bn

people living with hearing loss, around 30% of the global population.

---

---

---

---

---

---

---

---

As many as

# 20%

of people have experienced situations in which they couldn't communicate with someone due to language differences.
